Eye Drop Schedule

The following schedule is to help you keep track of when to administer your eye drops. Begin using the antibiotic and anti-inflammatory eye drops in the operative eye as directed before your surgery, and continue with all three drops the day of surgery. Wait five (5) minutes between drops. Please use drops according to instructions on the bottle. Not all branded medications will require all available boxes.

Anti-inflammatory	Week of Surgei	Ϋ́											
Anti-Inflammatory Steroid Begin after surgery 1st Week After Surgery Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Anti-Inflammatory Steroid Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7
